THE CHALLENGE

Training 50–100 candidates at once is hard to track.

Practice stops when class ends

Candidates need exam-style practice every day, not only during training hours.

Readiness is a guess

Without scores in one place, it is hard to know who is ready for JFT-Basic and who needs help.

Good content takes time

Writing and updating exam-accurate tests pulls trainers away from teaching.

WHAT IS JFT GURU

Exam prep built for candidates going to **Japan**.

JFT Guru is an online platform for JFT-Basic preparation: real exam-style mock tests, SSW content and AI speaking practice, on the web and in our mobile app.

Built and run by Tech Bato Pvt. Ltd.

50K+
